🌐 LANGUAGES

• English(B1-B2)

• Turkish

🎯 INTERESTS

Programming

I research web design and user experience topics, and try to improve myself in areas where I am lacking

Research and Authorship

I research topics such as software and blockchain, and write articles based on the information I learn. I share these articles on platforms like Medium and Twitter.

Organizations

I am involved in the management boards of various communities. I organize social activities and attend various seminars. In my free time outside of work and school, I volunteer in these organizations and develop my social skills.
