SUMMARY

I'm a software engineering student at Konya Technical University, skilled in JavaScript, TypeScript, Python, and Solidity, with a focus on front-end technologies. I have experience with React and Next.js, and I'm an active member of various communities like Frontendship, Kamp.us, and Selcukchain. I'm passionate about software development and eager to contribute my skills and experience to the success of the Software Ecosystem.

SKILLS

Programming Languages	JavaScript, TypeScript, Python, Java, C, Solidity
Libraries/Frameworks	React, Next.js, Ethers.js, Numpy, Pandas, Tailwind CSS, Chakra UI
Tools/Platforms	Git, GitHubi Vercel, Netlify, Figma

EDUCATION

Sept 2020 - present   Konya Technical University - Computer Engineering   (GPA: 3.0/4.0)

WORK EXPERIENCE

Dominage - Software Developer   Jan 2023 - Feb 2023
– Developed designs for NFT projects
– Connected various websites to smart contracts coded with Solidity
– Designed the website according to users' requests

TrueFeedBack - Intern   May 2022 - Dec 2022
– Developed simple to medium-level websites
– Learned how to work with a team
– Developed my skills in working with various UI kits and frameworks

PROJECTS

Personal Portfolio   Link to Demo
– Developed the using Next.js
– Designed the user interface using Figma
– Connected the project to Vercel using a domain purchased from GoDaddy

Movie App   Link to Demo
– Developed a using Next.js and Chakra UI
– Created a local JSON file for storing data
– Used the data from the JSON file in the web application

NFT Marketplace   Link to Demo
– Developed a using Next.js and Chakra UI
– Created a local JSON file for storing data
– Used the data from the JSON file in the web application
